Company Profile

Imagescape Design Studios provides an integrated design process with master planning, architecture, landscape and interiors carried out in house. This ensures each facet of the design is coordinated, complementary and provide the client with a single point of contact.

The studio is committed to using the latest technology including Building Information Modelling (BIM). This provides realistic 3 dimensional visual of the design to assist in client briefing and communicating the project to end users.

Stephen Phillips (Strategic Director) brings over twenty five years of experience with the health and aged care sectors to the Health Care Studio. Currently he is managing the design of a specialist day surgery centre and private hospital.

Frank Camillo brings experience with residential and mixed use projects as well as expertise in landscape, master planning and urban design. Frank has a strong appreciation of the importance of context providing a strong basis for design for future generations.

Philosophy

At Imagescape Design Studios we recognise that in order to understand the client's needs and desire to achieve a suitable design solution we must understand the client and where they are coming from.

We believe in providing a complete solution that addresses the wider ramifications of responsible use of the resources of our planet. Integral to this is the provision of a design that is an asset to the community in the long term and a design that provides ongoing joy to the community.
